

GAZELLE

TENNIS SPORTS WHEELCHAIR

Adjustable position Tennis Wheelchairs

Childs Tennis Wheelchairs

So you need to get to every ball, you need a stable platform to make shots from, and you need your chair to respond as if it was an extension of your body.

The new Gazelle has a light-weight frame designed to increase first push response. It has four contact points on court for a very stable ride, and because its custom built for you, it fits like a glove.

Built from aluminium or titanium your computer aided designed frame will offer maximum rigidity. This directs all kinetic pushing forces directly to the wheels with no energy lost in frame flexibility.

Custom built and with no adjustment matrix's, the Melrose Gazelle is a simple, uncluttered, very light and durable Tennis Wheelchair.
