

HAWK

FIXED FRAME DAY WHEELCHAIR

The Melrose Hawk comes standard with a lightweight frame that is nice and compact with no under-frame. The lack of under-frame makes lifting and loading much easier once the rear wheels are popped off.

It is custom built to the individuals specification for seat width

and length for a safe comfortable ride.

An adjustable camber bar position allows you to alter your centre of gravity and seat height. This makes it suitable for new wheelchair users that are unsure what seating position will work best for them.
