

TILT N SPACE

FIXED FRAME TILTING WHEELCHAIR

The Tilt and Space is a wheelchair designed to accommodate special seating and positioning requirements for both children and adults. It has the ability to tilt through 45 degrees, with adjustable back angle and many other special features.

Pop off wheels, removable footrests and a tilting back allows the wheelchair to be transported in a car trunk easily.

Standard features include a range of wheel and castor sizes as well as a choice of standard colours.
