

TORPEDO

AFL SPORTS WHEELCHAIR

Built to cope with the big hits, these sports chairs have been designed to cope with the rigors of the fast expanding game of Aussie Rules. Developed with a robust frame built with reinforced bottom rails, this exciting new sport needs chairs with additional strength that keep going until the final whistle.

We've also added the highest quality components available,

many of these parts are built in-house by our team of qualified engineers using the latest CNC technology.

The Melrose Torpedo comes standard in lightweight aluminium, but can also be built in titanium for a super light super responsive frame.
